Dear Peter

Routes affected by the works at Tottenham Court Road

Thank you for your letter and map about the routes affected by the works in the Tottenham Court Road area.

We note that the broken links on route 176 are estimated to be 1300 links (about 5.6% of passengers) a day would be affected by the proposed changes. We would ask that you monitor the affects on parallel routes 6, 13, 15, 23 and 139 to see if additional capacity is required to cope with any displaced passengers.

Whilst we appreciate that these diversions are the best solution to this major disruption we would ask that you monitor congestion on the roads that will be used for these diversions. Will there be any parking restrictions on Denmark Street to enable the bendy buses using this street to move without any restrictions?

Thank you for the opportunity to comment on your proposals. If you have any queries on this response please do not hesitate to contact me.

Yours sincerely,

Mark Donoghue
Committee Administrator & Bus Policy Assistant
